

Medication History Authority

Updated 9/6/2015

By becoming a patient and accepting health care from Alamo Wellness Alliance, you authorize us to electronically download your medication history from the previous twelve months at the time of your visit. This policy facilitates accurate and efficient treatment with minimal inconvenience to you. At the time of your visit, we will update your medication list to include **only** the current medications.

If you choose to deny us this authority, please do so verbally to our staff or in writing through the patient portal. If you do forgo this service, please provide us with an updated medication list at each patient encounter with name of drug, dosage and times per day the medicine is taken. We appreciate your cooperation.
